Ready to Use

POWER CAN

GREY PRIMER

Description

Power Can Grey Primer is a 1K ready to use high build primer/filler in an aerosol. It is used for priming uneven surfaces before top coating.

Power Can Grey Primer is capable of producing a coating of a film thickness similar to that of a spray gun applied primer. The convenience of using a high build primer in an aerosol means that masking is kept to a minimum. Mixing paint and cleaning spray equipment are avoided as a result of using **Power Can Grey Primer** leading to savings in time and materials.

Power Can Grey Primer is chromate free and easy to sand.

Surface preparation and instructions for use

Power Can Grey Primer can be applied to the following surfaces:-

- Fully cured paint.
- Polyester bodyfillers and G.R.P.

Thoroughly clean and degrease surfaces with a suitable spirit wipe or thinner such as U-POL System 20 Degreaser. Abrade wet or dry with 320-400 abrasive, re-clean, dry and degrease.

Application

Shake can thoroughly before use for a minimum of 2 minutes.

Apply 1-2 light even coats.

Allow 5-10 minutes flash off time between coats.

Drying time

Allow 10-20 minutes before overcoating.

Drying time is dependent upon film thickness, humidity and temperature.

Over-painting

Power Can Grey Primer should be flatted wet with 600-800 or dry with 400-600 abrasive.

Power Can Grey Primer may be over-painted with most paint systems.
